Dated but fun to drive. I only got it as it was dirt cheap at a sale.. Bought for the collab part - but that isn't actually implemented :(

Really too bad because the whiteboard is pretty much the only really usable implementation of all that I've tried so far.. Still better than Bad Rats. Since I bought this game in a thirty-one item pack for \$4.99 divided is \$0.16 an item, dlc was some of the items. the \$0.21 steam card trade off was a profit from day one. The game play is equivalently entertaining to that board game your uncle made you play when you were six. The gameplay is average but when you win theres that small spark of happiness to keep you going. Would I play it again? Yes. Can I play it for hours like a Triple A Game? Probably not. Am I happy with my purchase? Yes. I stayed up for the release of this game as it looked fun enough. Since this is a chat section I am inclined to say.....

FIRST PERSON TO COMMENT YEAAAAAAAAA. Nice Game after all. I'm feline good about this game, too bad I didn't cat-ch it when it came out because the multiplayer is dead as a dead bird now, and it certainly does not have a meowsive single player campaign. The comcat mecatnic is a breath of fresh air in a hair-filled room of clones, and I would have liked to see it explored fur-ther.. don't bother with this game..... Your better off getting Strike Fighters 2: Europe or even all 5 SF2 games. Much better mods and has no problems running on newer OS. Great playability destroyed with a lot of crashes.

Couldn't even beat the tutorial...20/10. By playing Flashback I was hoping to get a nostalgia trip and a happy reunion with Conrad. After six hours I wouldn't say it's the best game I've played, not either a game I put a lot of time in, but I liked getting flashbacks to a bygone era. The steering is more action oriented than the original and the story is changed a bit. I bought the game on sale on Steam and the low price justifies the six hours of gaming fun (completed it on Normal difficulty). I don't think I'll be playing through all of the achievements in the game. However, recommended for a challenging and nostalgic gaming session.. Do you like zombies? Yes?..Good!

Do you like bowling too? Yes? ..Ok!

And do you like little funny games? Yes?..

Then, Here we go and have fun with * Zombie Bowl-o-Rama! * :-)

. If you buy this, you'll just end up waiting a couple years for the next one.. This game has a neat artstyle. Devs abandoned the game, there's probably 30 minutes of finished content.. I think I first played this game on CD though I wouldn't be surprised if it was on 3.5 inch floppy. I loved it then and I love it now. it's a simple game, with some micro managing for those of us who love a good micro manage, and you can either play the avid conqueror or the 'imma hold up in this castle and ignore the world' hermit easily. Plus you may learn a thing or two about UK geography. Like the vague location of Lancashire. Though I'm still not sure about it's relation to the M25.. I really liked the first two parts in the Doorways series and this one is no exception.

Some say the in-game graphics look a bit dated, but they sure do trick for me. Personally, I think it's an amazing art style throughout the whole series. It's pretty disturbing and so are the background stories and the creepy sounds you'll hear from time to time when discovering new areas. This one tops it on all levels.

One downside of the previous two parts was that the puzzles were a bit too easy. This one delivers more. Especially in the part called 'The Mansion' which is also amazingly beautiful.

I do wonder about the mental state of the developers though.. the last part is.. sick! Loving it!! :). I bought this game with sale coupon, it's worth the money :)
